

## LINER KOREA MARKED TIME IN STORM

Making less than 10 knots an hour and an average of 100 miles in 24 hours, the Pacific Mail liner Korea is declared this morning to have encountered the worst of the storm the first few days out from San Francisco.

All her officers unite in stating that the trip was one of the worst experienced in this part of the Pacific in many years. While no material damage was done the big vessel it was found impossible to drive the liner through the mountainous seas, and a more southerly course under slower speed was followed until better weather conditions were found.

The Korea brought one of the largest delegations of mainland tourists to reach the islands this season. A total of 125 cabin, 6 second class and one steerage passengers arrived for Honolulu.

On departing from San Francisco, first class accommodations were at a premium. In proceeding to the Far East this evening, 47 cabin, 14 second class and 146 steerage passengers will continue the voyage to ports in Japan, China and the Philippines.

Of the half dozen machines brought to Honolulu in this vessel four of them are the property of visitors to the islands who propose to make an extended stay here.

The liner was halted on the voyage while the transfer of Chief Steward Morgan from the Korea to the China was effected.

In rounding up the Asiatic crew after leaving San Francisco, two Japanese stowaways were discovered who will be returned to their native land.

Cargo for Honolulu amounts to less than 150 tons. A mail amounting to 104 sacks arrived for this port. In departing for the coast of Asia at 5 o'clock this evening the Korea will be supplied with a quantity of island coffee and pine.

### Hilsonian Freight New Moving.

Fast work is being accomplished in the discharge of freight from the Matson Navigation steamer Hilsonian, now an arrival at the port. This vessel is to be discharged of about 1500 tons of cargo at Honolulu, following which it will proceed to island ports. The vessel also carries 52 tons of freight for Kapaemahu, 604 tons for Hilo, 347 tons for Port Allen and 451 tons for Kahului.

The freighter expects to sail for Port Allen tonight, but before departing will take on 2000 sacks of pineapples and other cargo. At Port Allen 800 tons of sugar will be added, 1100 at Kapaemahu and 1500 at Hilo.

### New Propeller for Wilhelmina.

Under the cover of darkness, the new propeller blade will be fitted to the Matson Navigation liner Wilhelmina tonight, the vessel to enter the interisland floating drydock Honolulu this evening, leaving the structure shortly after midnight if all goes well with the installation.

The work will be rushed as it is the intention to dispatch the Wilhelmina for Hilo tomorrow, there to be discharged of a quantity of cargo. Much sugar awaits the vessel at the Hawaii port. The accident, it is declared, will not prevent the Wilhelmina getting away for San Francisco at 10 o'clock next Wednesday morning according to the regular schedule.

### Foreign May Sail Tonight.

The British freighter Forerick, it is expected, will be discharged of the 5800 tons of Australian coal this evening and be ready to sail for the Sound at that time. This vessel will take ballast only. The vessel brought fuel from Newcastle, N. S. W. In departing from the interisland coal bunkers, the steamer Strathfield will be given a place there where an additional shipment of 5600 tons of coal from Australia will be discharged.

## ARMY AND NAVY

[By Latest Mail]

SAN FRANCISCO—Col. William H. G. Bowen, commanding officer at the Presidio of San Francisco, one of the best officers in the army, one with a splendid record for gallantry in action, particularly in the Indian wars, and who could reasonably have expected to become a brigadier-general within the next two years, was arbitrarily retired from active service by telegraphic orders issued under authority of President Wilson. Colonel Bowen immediately turned over command of the Presidio to Col. George Bell Jr., who probably will be the permanent commanding officer there.

To the entire Presidio the retirement order came as a surprise and a shock. Colonel Bowen would not have reached retiring age until 1916, but the president simply took advantage of the law that permits him to retire an officer arbitrarily at the age of 62. Colonel Bowen reached this age last Wednesday. He was born in New Mexico January 7, 1852, but so far as his capabilities for active service are concerned, he does not appear a year over 55. He assumed command of the Presidio when the 12th Infantry came here from Monterey a few weeks ago.

Colonel Bowen was appointed a second lieutenant in the 5th Infantry October 15, 1875. He has served in the 6th, the 13th, and the 12th regiments of Infantry, commanding the last named regiment since July 1, 1908. His field record on the plains and in the Spanish-American war is a magnificent one.

The retirement order came direct

### Better Weather off Maui Coast.

Better weather conditions prevailed off the coast of Maui according to reports brought to this city today with the arrival of officers in the Mauna Loa. This vessel arrived this morning with a small list of passengers and a general cargo including 540 sacks of sugar, 21 sacks of beans, 84 sacks of corn, 101 sacks of spuds, 32 sacks of taro, 55 crates of chickens and 75 packages of sundries.

Sugar awaiting shipment at Kilauea amounts to 1500 sacks.

The Mauna Loa is to be dispatched for Maui ports at 5 o'clock Friday evening.
